## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-28 are allowed over prior art.

The following is an examiner's statement of reasons for allowance:

None of the prior art teaches or suggests a method for evaluating characteristics of thin film layers of a patterned semiconductor wafer comprising steps of directing x-ray probe beam onto said patterned wafer such that spot size of said probe beam is larger relative to the feature size of the pattern on said patterned wafer and analyzing intensity of reflectivity data to determine characteristics of said thin film layers as claimed in independent claims 1, 11 and 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
